# GIRLS STEP UP!

Unleash Your Potential, Define Your Future!

- Are you a high school student in grades 10-12 who identifies as female and is uncertain about your path after graduation? Eager to discover your passions and define your future?

- Have you thought about a career in Tech? It's not just about coding; technology is everywhere, in every field, and essential for success!

- Join the STEP UP! Program and embark on a thrilling journey of self-discovery, empowerment, and endless possibilities!

Program Highlights

- 8 exciting modules revealing the world of STEM, workplace skills and uncovering your passions and your potential.

- Engaging online sessions where learning is an adventure.

- Real conversations with mentors who've walked the talk.

- Discover what lights your fire and where you want to go.
WHAT IS GIRLS STEP UP!?

Girls Step Up! is a transformative program that empowers high school students who identify as female by introducing them to the dynamic world of technology, leadership, entrepreneurship, and STEM fields, while pairing them with industry leading mentors. Our mission is simple: to inspire and equip the next generation of female leaders to thrive in their careers.
