# Learning About Climate Change With Parks NB

Our parks are unique. Each one of them has something different to offer and highlight.

We are offering your school/class the opportunity to join us outdoors to see the effects of climate change first and inspire you and your students to take action.

Each of our parks has two lesson topics with challenges for all age levels. We also have a diverse set of activities at every park your school can engage in.

Parcs  
Parks **NB**

# How do I book?

# Who do I contact?

Have your calendar ready, with some information on your school/class size and what your students have covered in school surrounding climate change.

Be sure to let us know if any students or staff have accessibility or other inclusion needs and we will be happy to accommodate.
